REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 3rd June 1884.

READ—

Letters from Messrs. Davy, Muddappa & Co., Toddy Contractors, dated 24th November 1883, 19th December 1883 and 27th March 1884, regarding the retail selling rates of toddy.

No. 1454-60—31, DATED 3RD JUNE 1884.

ORDER THEREON.—As the sale of toddy is a monopoly, it is necessary in principle that Government should fix a maximum price so as to protect the consumer from the demand of excessive prices. It is stated by Messrs. Davy, Muddappa & Co. that the actual selling prices now vary beyond the maxima and minima rates fixed by contract. This is objectionable, but, at the same time, the Dewan has no doubt that the actual rates prevailing are in themselves fair and proper. Messrs. Davy, Muddappa & Co. will under these circumstances be requested at once to specify the various mámúl rates which prevail. On receipt of this information, the maxima and minima rates will be so fixed as to cover all existing mámúl rates which may appear unobjectionable.

2. As regards the Town of Mysore, the lower price fixed for the benefit of bakers is cancelled, but sales to bakers should be strictly within the maximum and minimum rates fixed for that town.

3. As the toddy revenue of the Civil and Military Station of Bangalore has to be paid to the Resident's Treasury, his sanction has been requested for the introduction of a similar arrangement into the Station and this will be done immediately.

R. VIJAYINDRA RAO,
Secretary.

READ—

Letter from the Deputy Commissioner, Bangalore District, No. 193, dated 21st May 1884, reporting on petition from Kannaiya Shastri of Kasaba Magadi complaining that the arrears due by him on Sigikoppa Jodi village were recovered from a third party, &c.

No. 1640-8—35, DATED 13TH JUNE 1884.

ORDER THEREON.—The rule is that Government revenue in arrear can be received from any one who may tender the same.

2. If the revenue in arrear is tendered at one and the same time by the registered owner and another who is not the registered owner, it should be received from the former and not from the latter.

3. The mere payment of revenue by one, who is not the registered owner, is no ground whatever for the Revenue officials interfering in any way with the rights of actual possession and enjoyment.

The person paying the revenue is entitled to a receipt for the amount paid but to no other help from Government.

4. The Government cannot undertake to enquire into existing mortgages on lands on which an arrear is due. It will not interfere with the possession of either the mortgagee or mortgager. The mortgagee or other person interested in the pro-

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 13th June 1884.

perty may always protect it from sale for arrear of revenue, by paying such arrear to Government. This ruling supersedes the orders conveyed in official memo No. 904 of 6th February 1884 to the Deputy Commissioner of Bangalore.

5. In the present case it is not clear whether the Government to any extent interfered with petitioner's possession, but if any orders for such interference have been issued, they should at once be withdrawn.

Letter No. 220 of the 28th May 1884, from the Deputy Commissioner, Bangalore, submitting for orders the case of one Isvara Sahuji of Dodballapur Taluk.

No. 1723-31—37, DATED BANGALORE, 17TH JUNE 1884.

ORDER THEREON.—The case of Isvara Sahuji as stated by the Deputy Commissioner does not establish that it is entitled to any exceptional treatment; Isvara Sahuji undertook the restoration of the two ruined tanks in the Channadevi Agrahara with full knowledge of his liabilities and the capability of the land under them yielding or not an adequate compensation for his capital. Disappointed, however, in his expectations he resigned all but a small extent assessed under the conditions at Rs. 12—3—3 at four annas per kudu. The Survey settlement having raised this amount to Rs. 40 deducting rupees ten as usual in consideration of the expenditure of capital, the Sahuji resigned it. There is nothing exceptional in these proceedings and his prayer supported by the Deputy Commissioner that he may be allowed to take up two survey numbers duly assessed at Rs. 40, but with a deduction of Rs. 28—9—0 the fourth of the entire assessment on the whole achkat, is not one to which Isvara Sahuji is "apparently entitled" as stated by the Deputy Commissioner. The rule is that no "Chauthayi" is allowable for land not under occupation.

2. The Dewan however will not object to his taking up any portion of the whole achkat on shrayam tenure for four years at the end of which he should be called upon to pay the full amount, minus the fourth of it due to his restoration of the tanks. If the land taken up is assessed at Rs. 40, the shraya should be for

2nd year	.. ..	„ 15.
3rd year	.. ..	„ 20.
4th year	.. ..	„ 25.

Any wet lands under the tanks in question which he may take up, may be given to him on shraya in the proportion above specified.

Letters Nos. B and 1423—1048, dated 19th February and 20th March 1884, from the Deputy Commissioner, Shimoga District.

No. 1946—44, DATED BANGALORE, 30TH JUNE 1884.

ORDER THEREON.—In one of the letters read above, the Deputy Commissioner of Tumkur refers for orders of Government a letter from the Sub-Division Officer at Chitaldroog on the necessity for collecting a moderate fee on charcoal burners and chunamkiln burners who at present pay only a moderate professional tax as mohatarfa and obtain wood for charcoal and chunamkilns tax free. It is apprehended that these men make bad use of this privilege and not only commit waste of the junglewood, often of valuable kind, but sell the charcoal to traders, such as ironsmiths who have to pay a seigniorage for such wood.

2. The Deputy Commissioners of other Districts, whose opinions on the subject have been obtained with respect to the procedure existing in their respective jurisdictions, are more or less in favor of restricting the present unlimited choice which the ryots enjoy in respect to quantity and quality of wood, as well as the locality whence they might get it; while some of the officers consulted advocate the imposition of a small fee for each cart-load of wood.

3. The Dewan has given the subject his careful consideration, and holds that, at present at all events, it will not be necessary to tax the ryot for the privilege which he has long enjoyed of having this wood free. It is however necessary to adopt precautionary measures for the prevention of abuse; jungle tracts ought to be clearly defined periodically either once a year or once in two years, within which alone wood ought to be felled for charcoal. Trees which in the opinion of the Forest and District Officers ought not to be felled for such purpose should be distinctly described, named and published in the Government Gazette and in the taluks and villages; the village and taluk authorities being held strictly responsible for irregular felling against these provisions. The ryots and chunamkiln burners who enjoy the privilege of felling wood free for charcoal should be furnished by the taluk authorities with printed licenses (free) authorizing them to so fell the wood, the licenses showing the name of the ryot, the name of the jungle wherein the wood is to be felled, the quantity, and the time within which the license should be returned to the taluk. It may also contain as foot-note the names of the trees which the license-holder is prohibited from felling. This ought to prevent to a very great extent the ryot felling more than is absolutely necessary for him and selling the surplus to *bonâ fide* traders who as hitherto will continue to pay the seigniorage.

4. A strict vigilance on the part of the taluk authorities added to the precautions above prescribed ought for the present to put a sufficient check on indiscriminate and irregular felling, and the Dewan trusts that the Deputy Commissioners and Sub-Division Officers will give the subject their close attention.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 26th June 1884.

From the Military Secretary, To the Secretary to the Dewan of Mysore, No. 310—F. No. 93, dated 3rd June 1884.

I have the honor to request that you will submit for the orders of the Local Government the following case of a Siledar of the 2nd Regiment who is incapacitated for further service by injuries received from a fall from his horse on parade.

From a report received from Lieutenant Jones, Staff Officer, it appears that the man in question, Siledar Mir Gulam Husen, No. 26 of the 4th Risala, fell with his horse when the Regiment was galloping in line across the parade ground at Mysore at an ordinary parade, and that the man was in no way to blame, the horse having probably crossed its legs and come down without any fault of the rider.

He was taken to the hospital at Mysore, and, according to a report of the Civil Surgeon, was admitted on the 26th February last with a compound fracture of the inner bone of the right leg, and a few days after admission mortification set in which necessitated an amputation below the knee joint. He is still in hospital and is in a fair way to recovery, but is by the loss of the limb unfit for further service, and will find it difficult, if not impossible, to earn a livelihood in any other way. His service being 28 years he is entitled to a pension of Rs. 3—8—0, but has petitioned for a special pension of Rs. 8 as he has no son or other relative fit to be entertained as a Bargir which would give him an approximate addition of about four and a half rupees.

There does not appear to be any special provision in the Rules of the Mysore Force for cases of this nature, and I have therefore referred to the rules for wound and injury pensions of the Native Army of the British Government the provision of which applicable is as follows :—

Scale of Pension for injuries or accidents on duty.				Rate.
Troops of the Line.	Trooper or Sepoy.	Losing one limb or one eye, or being so disabled as to be incapable of earning a livelihood.	Of and above 15 years' service.	5 4 0

The ordinary pension merges in the wound or injury pension and the increase to the Siledar over what he would be entitled to by length of service is therefore only Rs. 1—12—0, and as such cases may occur again I now submit this case for the consideration of the Local Government as well as the general question whether the scale adopted in the Native Army of the British service should be ordinarily followed when no relative of the injured man is fit to be entertained, or whether the Government is prepared to make greater concessions in consideration of the probability that the number of such cases will probably be very few and that the amount in the case of a man without relatives to assist him is trifling.

I append for reference the full scale to which reference is made.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 26th June 1884.

No. 1886-7—22, DATED 26TH JUNE 1884.

ORDER.—The principle of granting "wound pensions" to Siledars and Sepoys who become unfit for further service from injuries sustained in the execution of public duty from no fault of their own is quite just, and the absence of a suitable provision in the Rules of the Mysore Force is a defect; the Dewan therefore sanctions the adoption of the scale of pension which now regulates such cases in the British Native Army. The scale is sufficiently liberal.

2. In the case of Siledar Mir Gulam Husen the pension would be Rs. 5—4—0 a month, which is sanctioned.

Replies from Deputy Commissioners of Districts and Sub-Division Officers to Circular No. 4851-8—85, dated 31st December 1883, enquiring whether any fees are levied from Pyrotechnists for licenses issued to them for the manufacture and sale of fireworks.

No. 1891—42, DATED 26TH JUNE 1884.

ORDER THEREON.—It is observed that while in some Districts a license fee is levied for the manufacture of fireworks, there is no charge made under this head in the other Districts. The judgment of the Madras High Court, copy of which is appended, is against any such charge, and the Dewan directs that no license fee shall hereafter be required from the manufacturers of fireworks.

APPELLATE CRIMINAL.

BEFORE MR. JUSTICE INNES AND MR. JUSTICE MUTTUSAMI AIYAR.

1882.

The Queen, against Suppi and another.* — February 24. March 16.

Indian Arms Act, 1878, Sections, 4, 5, 9—Gunpowder and Rockets for fireworks, not ammunition.

The manufacture or possession of fire works including rockets which are mere fireworks without a license is not prohibited by Section 5 of the Indian Arms Act, 1878.

The rockets referred to in Section 4 are war-rockets.

The accused in this case were sentenced under Section 19 of the Indian Arms Act, 1878, by the Head Assistant Magistrate of South Canara to pay a fine of Rs. 20 each, and, in default of payment, to rigorous imprisonment for 15 days, for having been found in possession of rockets and of the gunpowder and other articles used for the manufacture of fireworks without a license.

The Sessions Judge referred the case under Section 296 of Act X of 1872, for the orders of the High Court on the ground that the "Rockets" and "Explosive and fulminating materials" referred to in Section 4 of the Indian Arms Act, 1878, in the description of "Ammunition" did not include materials used for fireworks, and consequently that the accused had been wrongly convicted.

Counsel were not instructed.

The Court (Innes and Muttusami Aiyar J. J.) delivered the following—

Judgment.—First defendant is a servant of a licensed vendor. Neither of the two defendants is liable under the Arms Act, as the manufacture or possession of fireworks without a license is not contrary to that Act. The manufacture or possession of fireworks including rockets which are mere fireworks does not come within the prohibition of Section 5 of the Arms Act.

The rockets referred to under the definition "Ammunition" are war-rockets.

The conviction must be set aside and the fine refunded.

* Case No. 11 of 1882 referred by J. W. Best, Sessions Judge of South Canara.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 26th June 1884.

From the Deputy Superintendent, Survey of India, in charge Mysore Topographical Survey,
To the Secretary to the Dewan of Mysore, No. 88, dated Bangalore, 10th June 1884.

I have the honor to submit for the information of the Dewan the following report on the progress of the Topographical survey during the season 1883—84.

2. During the year the establishment remained pretty much at the same strength as in the previous year, but there was a change in the executive charge, also in that of the office of Assistant Superintendent, and since the close of the field season one of the best of the Surveyors has been transferred to the Calcutta office.

3. The operations were of two kinds, preliminary triangulation and detail surveying, both on the 1 inch standard scale for the Province generally, and on the 12 inch scale for the City of Mysore. The detail survey of the City of Bangalore will shortly be commenced on the same scale.

4. The general triangulation was carried into the Kolar District where 1,400 square miles have been completed as shown by a green wash on the accompanying index map Preliminary triangulation and traversing operations for the large scale city surveys were also carried out.

5. The topography completed on the 1 inch scale, colored brown on the index map, comprises an area of 3,948 square miles included in standard sheets Nos. 3, 51, 52, 53, 59, 60, 61, 64, and a small portion of No. 65 situated in the Shimoga, Mysore and Bangalore Districts. The first eight of these standard sheets will be prepared for publication during the recess. The Mysore City survey embraces an area of 17 square miles on the 12 inch scale, but, as already reported, the fair map cannot be completed for publication until the limits of the City have been determined on, and the demarcation is completed.

6. An index map and the usual statistical table are appended giving the out-turn and cost of the survey up to date, the mileage rate for the current season being however approximate only, as four months of the survey year have still to run.

ORDER THEREON.—The report read above will be printed and circulated. The Dewan notes with pleasure that fair progress has been made in the season of 1883—84, both in the preliminary triangulation and the detail survey.

2. The limits of the Mysore City for the purpose of the 12 inch survey have already been fixed, and the Secretary, Public Works Department, will be requested to communicate the same to the Deputy Superintendent in charge of the Mysore Topographical Survey.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Educational),—dated 9th June 1884.

No. 696, DATED 9TH JUNE 1884.

ORDER.—The increasing demand for English instruction according to University standards, imposes upon the Mysore Government the obligation of seeing that the public schools at head-quarters of Districts are thoroughly competent to do the work required of them. For the accomplishment of this object, it is considered advisable that certain changes should be made in the existing establishments of these institutions, the aim of the revision being to strengthen the teaching staff generally, both by additions and by such alterations as are warranted by the merits of the respective cases.

2. Moreover, with the view of offering greater encouragement to the efforts of qualified teachers and thereby inducing young men of ability to adopt an educational career as one whose advantages are not inferior to those which form an attraction to other branches of the public service, it has been resolved to grade the educational appointments into classes, attaching to each class a graduated scale of salaries which will rise to a maximum by periodical increments. These arrangements will come into operation at once and be applicable to all the masters of the schools in question.

3. *Central College.*—The Central College at Bangalore having been recently reorganized, no change is at present called for in its establishment. But the abolition of the lower classes having rendered the appointment of a Vice-Principal no longer necessary, the officer in that position will in future be styled the Principal Assistant.

4. *Mysore.*—In the Maharaja's College at Mysore, the like step has been determined on of abolishing all the classes below that preparing for the Middle School Examination, corresponding to the Upper Fourth in Madras. Arrangements have also been entered into with the Trustees of Mari Mallappa's School to receive the pupils who will thus be given up. This abolition of the lower classes will set free the services of the teachers noted in the margin, all of whom have qualified for pension. They will therefore be retired unless employment can be found for them in the departments they wish to enter, and they are qualified for the same, namely—Chain Singh for the District Police, Venkata Subbaiya for the Revenue Department, Raghavendra Rao for Sub-Registrar, Puttanna as a writer or copyist, Srinivasa Murti to the charge of a Primary School class elsewhere, for which he is reported to be well fitted. The staff of the College will further be strengthened by the appointment of a Sanskrit Pandit.

	Age.	Service.	Pay.
B. Chain Singh	... 45	20	40
Venkata Subbaiya	... 37	20	30
Raghavendra Rao	... 34	19	25
M. Puttanna ...	... 35	16	20
M. Vyasa Rao...	... 39	16	16
S. Srinivasa Murti	... 35	16	14

5. *Shimoga.*—In the Shimoga College, Mr. King, the present Head Master, will be confirmed in his appointment and share in the graded scale of salaries. Also, duly to provide for the teaching of the College classes, another graduate will be appointed as an extra Assistant on Rs. 50, to take his place after the 2nd Assistant. The retention of the services of D. Gangaiya Naidu and T. Srinivasa Rao, 3rd and 4th Assistants, will depend on their properly exerting themselves and being favorably reported on at the end of the year If the Canarese Munshi, P. Venkataramana Shastri, is able to give instruction in Sanskrit also, to such students as may require it, his pay will be increased to Rs. 20.

6. *Tumkur.*—The Head Master, Mr. Clapham, has nearly completed the term of service for half-pay pension, and the Dewan desires to entrust him with special translation work at head-quarters, until he is fully entitled to such a pension. The appointment thus vacated will be filled up by selection from among the principal native Assistants of Colleges. The Head Master will be given a new Assistant, who must be a graduate, on Rs. 50. The Assistants, S. Ramachandraiya and S. Narayana Rao, will be warned that better results are expected from them if they wish to retain their places. P. Subba Rao and B. Subramanyam Pille will be provided by the Deputy Commissioner with employment as clerks, if upon examination they are found qualified.

They must at once appear before the Deputy Commissioner, who will report, as early as possible, upon their qualifications. The vacancies thus created will be suitably filled up, and the last Assistant will be retained subject to future favorable report upon him.

7. *Hassan.*—The Masters noted in the margin will be transferred for employment in the Revenue Department. S. Krishna Rao will be appointed a Deputy Amildar of the 2nd class, and the other two must at once appear before the Sub-Division Officer at Hassan who will report, as soon as possible, upon their qualifications, and specify the work for which they may appear to be qualified. The places of these three masters will be supplied by two graduates on Rs. 50 or 40, and a master on Rs. 20. T. C. Veland Pille, the 3rd Assistant, who is highly reported on, will be retained in that grade with an increase of salary to Rs. 40. A Canarese Munshi will be attached to the school and receive an allowance of Rs. 10, P. Venkatachar, now serving as a volunteer, being appointed on probation.

	Pay.
S. Krishna Rao, B. A.	Rs. 50
R. Madhava Rao ...	„ 45
M. Puttanmaiya ...	„ 25

8. *Kolar.*—The Head Master, Mr. W. Dunning, was temporarily retained to allow of his completing the term of service required for pension. This period having passed, he will now be retired as intended, and his place supplied by the transfer of Mr. G. Dunning from Chitaldroog. Of the Assistant Masters, C. Madhava Rao and B. J. Venkoba Rao will also be retired on the pension or gratuity to which they may be entitled. A graduate will be appointed as 1st Assistant on Rs. 40 or 50, according to qualification. D. Vasudevaiya, who is favorably reported on, will be 2nd Assistant on Rs. 30, and an additional master on Rs. 15 will be allowed for the school.

9. *Chikmagalur.*—Here no immediate change seems necessary as the staff was recently strengthened. But, if required, a Pupil Teacher may be added.

10. *Chitaldroog.*—The vacancy for a Head Master occasioned by Mr. Dunning's transfer to Kolar will be filled up by selection from among the native Assistants of Colleges who are graduates. The 1st Assistant, W. Hanumanta Rao, is well reported on and will be retained. M. Narasinga Rao has not given satisfaction and will be allowed to retire. L. Gopal Krishna Rao will, if found qualified, be provided with other employment as a clerk, and his place suitably filled up. The Sub-Division Officer is requested to report upon his qualifications. If requisite, a Pupil Teacher may be added to the staff of the school.

11. It will be seen from the foregoing that the vacancies which have now to be filled up are as follows :—

1st. By graduates.—

7	1 at Shimoga on	Rs. 50.
	1 at Tumkur on	„ 50.
	2 at Hassan on	„ 50 or 40.
	1 at Kolar on	„ 50 or 40.
	2 to fill vacancies caused by the promotions consequent upon the retirement of Mr. Clapham and Mr. Dunning.	Salary according to qualification.

2ndly. By undergraduates or other duly qualified persons.—

9	1 at Tumkur on	Rs. 25
	1 do on	„ 15.
	1 at Hassan on	„ 20.
	1 at Kolar on	„ 20.
	1 do on	„ 15.
	1 at Chitaldroog on	„ 20.
	1 do on	„ 15.
	2 Pupil Teachers at Chikmagalur and Chitaldroog, if really required.	Each on Rs. 5.

For the apointments for which graduates are required, applications have been invited from duly qualified candidates. For the other vacancies, the Head Masters concerned are requested to submit carefully considered nominations as soon as possible. The nominees should be selected with reference exclusively to their education, zeal and energy.

12. *Furniture and Apparatus.*—All the colleges and schools will be supplied with necessary furniture and scientific apparatus. Head Masters should at once send in requisitions under this head showing what articles are already in store, when they were supplied, in what condition they are, and what are now required to supplement the stock.

13. *School Masters' Quarters.*—The only place in which these have not been provided is Chikmagalur, and the Public Works Department will be requested to select a convenient Government building in communication with the local authorities and the school master, and transfer the same to the Educational Department. It is believed that either an Overseer's lodge or the present Apothecary's quarters will be available for this purpose, the Travellers' Bungalow being probably suited for the Civil Surgeon's quarters.

14. *Graded List.*—It only remains to append a statement of the graded appointments and graduated scale of salaries referred to in para 2.

Class.	Appointments.	Qualifications.	Monthly Salary.	Periodical Increments.
I.	Head Masters of Colleges, Mysore and Shimoga .. .. Principal Assistant, Central College, Bangalore	Special.	Rs. 250 to 400.	Rs. 30 every other year.
II.	Head Masters of High Schools .. Upper Assistants in Colleges ..	B. A.	„ 100 „ 240.	„ 20 „ „
III.	Upper Assistants in High Schools .. Lower Assistants in Colleges ..	B. A.	„ 50 „ 80.	„ 10 „ „
IV.	Lower Assistants in High Schools ..	F. A.	„ 30 „ 45.	„ 5 „ „
V.	Teachers in Middle Schools ..	Matriculation	„ 15 „ 25.	„ 2 „ „

15. *Increments.*—The periodical increments of pay provided will fall due only at the beginning of the official year. Broken periods of a year will not be taken into calculation in reckoning service towards an increment, except in very special cases, which will require individual sanction.

16. *Promotions.*—Masters in any one class will be eligible for promotion to a higher class, if qualified and any vacancy exists. On attaining the maximum salary of his class, a master will not be entitled to further increments unless thus promoted. But the number of appointments under each class will be limited, and on a vacancy occurring in any class, it will be optional with the Government to fill it up either by selection from a lower class or from elsewhere.

17. A gradation list of all school masters in accordance with this scheme will be shortly published.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Military),—dated 17th June 1884.

READ—

Letter No. 1110—163 of the 16th January 1884 from Military Secretary.

No. 1713-22—36, DATED BANGALORE, 17TH JUNE 1884.

ORDER THEREON.—The Dewan observes that the duty of guarding the property connected with cases of Criminal Courts is one justly devolving on the Police; the offices should be guarded by the peons attached to them. The Barr guard will therefore be withdrawn from this duty.

2. The Military Secretary will be requested to report whether since the abolition of the Treasury and Jail at Hassan and Chitaldroog and of the District Jails at Kolar, Chikmagalur and Tumkur, it has been found feasible to reduce the strength of the Barr force at those stations.

R. VIJAYINDRA RAO,
Secretary.

To—The Military Secretary.
The Deputy Commissioners of Districts.
The Assistant Commissioners of Sub-Divisions.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Judicial),—dated 1st July 1884.

READ—

Annual Report on Civil Justice in Mysore for the year 1883.

No. 1996—39, DATED BANGALORE, 1ST JULY 1884.

ORDER.—*Review by the Dewan.*—The Report on the administration of Civil Justice for the calendar year 1883 continues to record, as usual, the very simple nature of litigation in Mysore. The total number of suits instituted in the three classes of Original Courts, the Munsiffs', the Sub-Judges', and the District Judges', were 14,535 with a total value of Rs. 17,76,099. Of these, more than a third, 5,513, were of the nature of small causes, and 95·84 per cent of the suits did not exceed Rs. 500 in value. The results of their trials prove still further the extremely light nature of the files; about 69 per cent of the suits were disposed of without trial, by compromise, by decrees and dismissals *ex parte*, by arbitration and on confession: so that the real work of the Original Courts was confined to the small balance of 31 per cent of the file. It is therefore not without reason that the Chief Judge remarks that Mysore is "overcourted" and that the average amount of work falling to the share of each of these Courts is "very light", in comparison with the file of the Original Courts in the Madras Presidency. The distribution of work under the present arrangement is however unequal; while the files under all heads in some Courts are unduly heavy, (Munsift Courts at Bangalore, Mysore and Seringapatam): there are Courts where the work is extremely light. It is observed that the subject is engaging the attention of the Judges of the Chief Court, and it is therefore only necessary to remark in this place that one chief cause of the large number of Munsiffs' Courts in the Province is the necessity for avoiding unreasonably large local jurisdictions, and that while this object is secured by the present allocation of Munsiffs' Courts, the objection of the lightness of the civil work is to a large extent obviated by giving to all Munsiffs, except those few whose Civil files are very heavy, Criminal jurisdiction, an arrangement which is found to be very advantageous owing to the Amildars being both Magistrates and Heads of the Taluk Police. If, however, the Chief Court is able to suggest any reduction of the number of Munsiffs' Courts in a way not calculated to inconvenience the public, the Government will give the subject its careful consideration.

2. The important changes during 1883, which affected the Civil administration of the State, were the reduction in the number of tribunals (from 32 to 24) and the raising of the jurisdiction of the Munsiffs to 1,000 Rs. with power to dispose of small causes up to 50 Rs: this has slightly increased the Munsiffs' work and lessened in proportion the work of the Sub-Judges. The change has had no bad effect on litigation *bonâ fide*. The reduction of course produced a fall in the total receipts (from Rs. 2,30,162 to 2,06,250) Rs; but it was more than made up by the reduced expenditure (from Rs. 2,79,454 to Rs. 1,84,238).

3. Judicial Statements Nos. 9 and 11, printed in the appendix, give in detail the quantity of work gone through in the year under the heads of civil suits, miscellaneous cases, and execution, by each class of Courts and the average duration of suits both regular and miscellaneous. The results on the whole are creditable to the administration of Civil Justice. The pending file at the end of the year is small and a very large percentage of the witnesses examined has been discharged on the 1st and 2nd day of their attendance.

4. The cost incurred by the parties is calculated at Rs. 2,63,926, while the aggregate value of suits disposed of amounted to Rs. 16,82,473. This fact by no means satisfactory by itself conveys no adequate idea of the total actual cost incurred by the parties in the suits as the figures do not include the costs of execution; it would be interesting to know the total cost of litigation to the public and the proportion it bears not to the amount of decree but to the part of it realized at the end of execution.

5. Applications for declaration of insolvency were not many. Eighty applications were received and 22 of them were withdrawn: 29 were found to be *bonâ fide*; in 14 cases receivers were appointed and in 3 sentences of imprisonment were passed under the Indian Penal Code, Section 359; the remaining cases were pending at the end of the year. Fair progress has been secured in the execution branch.

6. The following comparative table gives the number of cases disposed of and how, in appeal by the Sub and District Judges:—

		1882.		1883.	
		No.	Percentage.	No.	Percentage.
Disposed of without trial		29	2·88	85	9·08
Without Contest.	Confirmed	33	3·29	30	3·20
	Modified	9	·89	5	·56
	Reversed	9	·89	3	·32
	Remanded	2	·19	8	·86
With Contest.	Confirmed	560	55·72	446	47·65
	Modified	141	14·02	133	14·20
	Reversed	176	17·51	177	18·26
	Remanded	46	4 57	55	5·87

The somewhat large proportion of appeals disposed of without trial calls for enquiry and explanation; the pending file was 120 at the end of 1883 and the average duration of appeals was 29 days. The miscellaneous appeals (79 disposed of and 7 pending) took an average of about 24 days for each case.

7. The appeals to Chief Court were 11 first appeals and 195 second appeals. The results of their disposal as particularized in the report of the Chief Judge are satisfactory; only in one case of the first appeal and in 38 cases of the second appeal were the decrees of the lower Courts reversed.

8. The miscellaneous appeals and "other Civil Miscellaneous Business" of the Chief Court call for no special notice.

9. The Process establishment continues to be on a satisfactory footing, giving a net saving to Government of Rs. 18,220—5—5.

No. 2669-80—61, DATED BANGALORE, 25TH JULY 1884.

ORDER.—The following budget grants to the Public Works Department for the year 1884—85 are sanctioned :—

	Rs.
From Provincial Revenues	9,50,000
From District Local Funds	4,80,000
From the Provincial Irrigation Fund	1,50,000
Total	15,80,000

2. The grant from District Local Funds will include the cost of establishment audited by the Comptroller and estimated for the current year at Rs. 31,000, so that the total amount available for expenditure on works and establishment in the Public Works Department is Rs. 15,49,000.

3. The estimated receipts from District Local Funds amount to only Rs. 4,22,000 ; but, as a special case, a grant of Rs. 4,80,000 is made for the current year by reduction of the cash balances to the credit of these funds. In future years, however, the grant for each District must as a rule be limited to the estimated annual income. The funds in question are no longer in debt and do not therefore require grants-in-aid from Local Fund General, which will be retained hereafter for expenditure on works of general improvement.

4. The balance to the credit of the Provincial Irrigation Fund on 1st April 1884 was Rs. 1,09,000 and the estimated income during 1884—85 is Rs. 80,000 Thus the total assets amount to Rs. 1,89,000. Out of this sum, a grant of Rs. 1,50,000 is sanctioned for expenditure on irrigation works during 1884—85. In future years the whole of the assets to the credit of this fund should be allotted for the Irrigation Budget.

5. These orders cancel those contained in the late Chief Commissioner's Proceedings No. 4436-7—D. F. 41, dated 1st November 1880.

Letter No. 54, dated 4th June 1884, from the Officer in charge, Amrut Mahal Department.

No, 2083-5—121, DATED BANGALORE, 5TH JULY 1884.

ORDER THEREON.—The Officer in charge of the Amrut Mahal Department requests sanction for carrying on experiments in preserving green forage in silos at Devambudi, Rambanhanta and Berur Kavals and for growing green fodder in the Rambanhanta lands. The importance of having on hand wholesome green fodder for cattle during the hot weather and at times when the rains hold back justify the experiments proposed, and the Dewan therefore sanctions a sum of Rs. 1,500, which will be placed at the disposal of Colonel Hay for the purpose of these experiments. It is hoped that, with the full and varied information which Colonel Hay has so assiduously collected on the subject of ensilage and silos, these experiments will show successful results. It is seen from the enclosures forwarded by the Amrut Mahal Officer, that opinions differ as to the kind of sides the silos should have. Lieutenant Tufnell lays down that the sides should be vertical, experiment in Allahabad is in favor of sloping sides; Lieutenant Tufnell again recommends that there should be a layer of straw between the earth and the fodder; this is not mentioned in the Allahabad report. Too much information cannot be securd on these and other points and Colonel Hay is requested to give a trial to all methods which have been tried with success elsewhere.

The expenditure of the sum of Rs. 1,500 may be adjusted by the Comptroller upon monthly bills submitted by the Officer in charge of the Amrut Mahal Department.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 16th July 1884.

No. 2360-9—55, DATED BANGALORE, 16TH JULY 1884.

ORDER.—It has been brought to the notice of the Government of His Highness the Maharaja that the annual sale of the pasturage of unoccupied Government lands is attended with great hardship to the large bulk of the ryots. At such annual sales, the whole of the available pasturage in a village is not unfrequently bought by some speculator not connected with the village, who sublets the pasturage to the villagers at very exorbitant rents. The extortion and annoyance which result from the present system has for some time past been the subject of frequent complaint from all parts of the Province, and the Government have had under its consideration various proposals for the removal of the evil complained of.

2. It is of course necessary that Government should get some return for the extensive pastures at its disposal. The revenue from this source amounted before the late famine to one lakh of rupees; during the famine years it was nearly nil; but since then it has gradually recovered and in 1882—83 stood at 1¼ lakhs. The question now is how to secure this present revenue and to provide for its prospective increase, without reverting to the objectionable system of competitive sales.

3. To the purchaser at the annual sale the owner of cattle now pays a rent calculated at rates varying from 1 to 2 annas per head, and even for so high a rent he is often unable to secure the desired pasturage. Under such circumstances a small Government rate of say ¼ anna per rupee of land revenue or ½ anna per head of cattle will doubtless be received as a great boon by the people, while the Government itself will derive therefrom a revenue somewhat higher than what is now realized by the annual sales. A rate calculated upon the land revenue will possess the great advantage of being readily ascertainable, but it is liable to the objection of being regarded as an additional burden upon the land. On the other hand a rate upon every head of cattle will be appropriate in itself, but its imposition will involve the delegation to village servants of powers which can be abused with comparative impunity.

4. Under such circumstances and pending the adoption, under proper safe guards, of a pasturage rate, if found necessary hereafter, the Government resolve that during the current year no hulbanni sales shall take place, but that, in lieu thereof, every village be given the option of securing the right to pasturage within its limits for a price fixed upon the average realization during the past two years. With this object, the following rules are issued for the information and guidance of all Revenue Officers:—

I. The average hulbanni realizations of each village during the years 1882-83 and 1883—84 shall be carefully calculated, and the grazing of all unoccupied Government lands of the village shall be offered for the amount thus ascertained to the inhabitants of the village for the current year.

II. If the villagers accept the grazing on these conditions, the amount to be paid by the whole village shall be apportioned by the various land holders and other residents of the village among themselves, and a list showing the amount payable by each individual according to such apportionment shall be prepared and signed by all the villagers interested. The list shall also be signed by the Patel and Shanbhog. It must be distinctly understood that the apportionment of the total amount payable by the village among individual members thereof is a matter of private agreement between themselves.

III. The Amildar shall scrutinize such lists and question the villagers as to whether they are satisfied with the arrangements therein recorded. Each individual against whom an amount is entered should be thus questioned If, upon such enquiry, the Amildar is satisfied that the arrangement is one to which all parties interested have given their assent, he shall certify this fact under his hand on the lists in question, which shall thereupon

be recorded with the Shanbhog. The amount specified in these lists against any individual shall thereupon be entered as the demand against him in his Khâte and shall be recoverable from him as a revenue demand.

IV. If the inhabitants of any village are unwilling to accept the grazing of the unoccupied Government lands of the village for the amount fixed therefor by para 2, or if they cannot agree among themselves as to the apportionment of this amount, or if, at the Amildar's enquiry, there arise disputes regarding such amount or its apportionment, then the right of grazing in the village concerned shall be sold on the spot as heretofore.

V. In villages the grazing right of which may be given to the villagers by agreement as above, there shall be no restrictions whatever placed upon the grazing of unoccupied Government lands by the cattle of the village.

VI. Instead of disposing of the grazing of each village as above directed, the Amildar may, where found necessary, arrange the villages in convenient groups and dispose of the grazing of each such group separately. Such grouping should be made with strict regard to existing grazing arrangements, and as far as possible with the consent of the villages concerned.

5. The Deputy Commissioners and Amildars are requested to give the widest publicity to these rules. Their effect should be fully explained to each village both before and during the ensuing jamabandi. The further continuance of the system now ordered for the current year, or the adoption of the alternative proposal of a pasturage rate, will depend upon the success with which these rules may be worked. The measure is of great importance to the agricultural population and the Government rely upon the earnest co-operation of all District Officers for introducing and working it in a way calculated to ensure its popularity.

Proceedings of the Dewan to His Highness the Maharaja of Mysore to the Public Works Department, dated 23rd July 1884

READ—

Note by P. W. Secretary, dated 31st January 1884, and Office Note by the Examiner, Public Works Accounts, on the subject of fixing and levying of rents of official residences.

No. 2802—33, DATED BANGALORE, 23RD JULY 1884.

ORDER THEREON.—The above correspondence shows that no uniformity exists at present as regards the amount of rent demanded by Government from the officials of different Departments for the occupancy of Government buildings, also that there are no definite rules regarding the collection and crediting of such rents. It appears that some are collected by the Comptroller and credited to the Civil or Public Works Department according to the class of building; whereas, others are collected by the Examiner, Public Works Accounts, and credited to the Public Works Department.

2. It is therefore ruled that from the 1st August 1884—

(1). The amount of rent to be paid per mensem by *all* Government officials (those specially exempted from paying rent being exempted) for the occupancy of any Government building, be fixed at 3 per cent on the monthly salary of the official. This amount is subject to the maximum and minimum limits of Rs. 20 and Rs. 2 per mensem respectively.

(2). The amount of rent to be paid per mensem by any private person for the occupancy of a Government building to be fixed in each case by the Secretary, Public Works Department, at ½ per cent on the original cost or present value of the building, as shown in his registers, subject to the minimum limit of Rs. 2.

N. B.—A proportionate reduction to be made in the event of only a part of the building being occupied.

(3). The collection of *all* rents paid for the occupancy of *all* Government buildings to rest with the Public Works Department.

N. B.—This rule does not at present apply to travellers' bungalows.

(4). The amount of all rents collected by the Public Works Department to be wholly credited to that Department.

(5). The repairs of all such Government buildings to rest with the Public Works Department.

(6). The payment of all Municipal or other taxes to rest, as at present, with the Public Works Department.

(7). The custody of *all* unoccupied buildings will for the present rest with the Revenue Department, who will be held responsible for all wanton damage which may happen to them whilst in their charge.

3. The Secretary, Public Works Department, will issue the requisite orders to ensure that the wishes of tenants regarding additions, alterations and necessary repairs are confined to absolute requirements; also that the cost of all damages due to wilful neglect be recovered from the tenants.

Note by Public Works Secretary on the Public Works Budgets for 1884—85.

No. 2902—20, DATED BANGALORE, 28TH JULY 1884.

Provincial Budget.

ORDER THEREON.—The grant has been fixed at 9½ lakhs in the Dewan's Proceedings No. $\frac{2069-80}{61}$ of 25th instant. No separate grant has been made for Civil Budget works, which are provided for out of the above grant.

2. The distribution of the grant is as follows :—

	Rs.
Civil Buildings	1,10,000
Irrigation	3,00,000
Communications	3,00,000
Miscellaneous Public Improvements	35,000
Establishment	1,99,200
Tools and Plant	5,800
Total Rupees....	9,50,000

3. *Original Works.*—The total grant under this head is Rs. 2,80,000 or Rs. 6,000 less than that provided last year. It is distributed as follows :—

	Rs.
Civil Buildings	50,000
Irrigation	1,00,000
Communications	1,00,000
Miscellaneous Public Improvements	30,000
Total Rupees....	2,80,000

4. Of the above sum, it is noted that no less than Rs. 90,100 are provided under "Reserve" for major and minor works, or nearly ⅓ of the total grant. The Secretary, Public Works Department, explains that this large sum has been set aside to make appropriations for unforeseen works, also to increase the Budget appropriations for such works as may require an additional appropriation later on in the year. This arrangement is not desirable and should be discontinued. The full allotment for Major works should be distributed to sanctioned and proposed works. The funds under "Reserve" should provide for minor works and be limited in accordance with Codal rules.

5. On comparing the grants for Original Works according to Budget heads, with those of last year, it is observed that there is an increase of Rs. 20,000 under "Civil Buildings." The increase is required for the reasons given by Secretary in para 3 of his Note.

6. There is also an increase of ¼ lakh under "Irrigation." This increase is noted with satisfaction. The total grant under "Irrigation" is, however, only 3 lakhs which is not considered sufficient to meet the requirements of the Province. A further increase is very desirable and should be made hereafter by a reduction under both "Civil Buildings" and "Communications."

7. The reduction of ¼ lakh under Communications is satisfactory. A further reduction is still necessary hereafter to meet the increase required under "Irrigation". The reduction may be effected by the gradual transfer of a few more of the less important roads to the District Funds for maintenance, also by a reduction in the grant for Original Works as there are now only a few new important roads to be opened out.

Proceedings of the Dewan to His Highness the Maharaja of Mysore in the Public Works Department,—dated 28th July 1884.

8. The submission of the estimates for works entered in the Budget and not yet sanctioned should be expedited and the orders of Government obtained thereon as early as practicable.

9. *Repairs.*—The transfer to the District Funds for maintenance, of the Koppa-Vastara and the Seringapatam-Channarayapatna roads is approved. The transfer of other roads hereafter will be necessary to meet the additional grant required under Irrigation as already noted in para 7. The grant of Rs. 3,600 to the Bangalore Municipality should be discontinued as soon as the funds at its disposal are sufficient to maintain all the roads within its limits.

District Funds Budgets.

10. The grants for these Budgets are fixed at Rs. 4,80,000 in the Dewan's Proceedings No. $\frac{2909\ 30}{61}$, dated 25th instant.

11. The grants-in-aid from Local Funds General made by the Secretary, Public Works Department, are not considered necessary, and have been struck out of the Budgets, as the District Funds of the several Districts are no longer in debt, and as the orders in the above Proceedings cancel the rules laid down in Chief Commissioner's Proceedings dated 1st November 1880, regarding the provision of a working balance. The above Proceedings of the Dewan also furnish rules for fixing the Budget grants in future.

12. The abstract of assets and grants—page 3—should in future furnish details for the Revenue Sub-Divisions of Chitaldroog, French Rocks, and Hassan. The details should be distinct from those of the Districts of Tumkur, Mysore, and Kadur to which the above Sub-Divisions are respectively attached.

13. The District Funds Budgets call for no further remark, except that the orders regarding "Reserve" for original Major works, Provincial Budget, should apply also to these Budgets.

Provincial Irrigation Fund Budget.

14. The grant of Rs. 1,50,000 is fixed in the Dewan's Proceedings already quoted. This is Rs. 70,000 more than what is provided for in the Secretary's Budget. The Secretary will arrange for the distribution of this sum on irrigation works in all parts of the Province. The rules for fixing the grant for this Budget in future are also furnished in these Proceedings.

15. The Provincial Irrigation Fund has, since the 1st April 1884, replaced the old Irrigation Cess fund. It is at present too poor to provide for the wants of the country under Irrigation; a grant-in-aid from Provincial Funds is therefore essential and a sum of 2½ lakhs has been given this year—2 lakhs under "Repairs" and ½ lakh under "Establishment."

16. It is noted that the grant for works is allotted exclusively under "Repairs," and that there is no provision under "Original." In future to render the Irrigation Fund Budget complete in itself, the whole grant for Irrigation in the Provincial Budget should be transferred to the Provincial Irrigation Fund, and the sum be distributed to both Original Works and Repairs.

17. For the sum of Rs. 2,64,000 under "Repairs" no details are furnished, the Secretary explaining it has never been the practice to do so hitherto. In future the grant allotted under Repairs should be reduced and that under Original Works increased; and in the case of the more important repair works estimated to cost Rs. 5,000 or more, they should be entered in detail.

18. The total grant for works under Irrigation in both budgets is Rs. 4,16,500 and compares unfavorably with that for Communications which amounts to Rs. 6,96,000. Every endeavour should be made to increase this grant hereafter in the manner noted in paras 6 and 7.

Proceedings of the Dewan to His Highness the Maharaja of Mysore in the Public Works Department,—dated 28th July 1884.

19. *General Remarks.*—The reduction under Establishment is noted with satisfaction. The percentage on the outlay for works is 26 and is still high. The Secretary's attention is drawn to this subject with a view that further reduction is considered desirable.

20. The proposed amalgamation of the Examiner's Office with that of the Comptroller will effect eventually a savings of about Rs. 9,000.

21. It is observed that there has been no preliminary issue of the Budget this year. The Public Works Secretary's attention is drawn to the Codal rules on this subject.

22. With these remarks the Budgets are passed and the Examiner is authorized to pass expenditure in accordance with the grants made therein, subject to the usual condition that no outlay on new works is incurred till the necessary estimates have been sanctioned by competent authority.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 5th August 1884.

No. 2900—Cir. 69, dated Bangalore, 5th August 1884.

Circular Order.—The orders contained in Notification No. 271, dated 15th November 1883, directing the attachment and management of Inam villages for non-payment of arrears of Government due, were not intended to preclude the District Officers from recommending sales of Inam villages in those cases in which such sales may be considered necessary for some good reason, such as the majority of shareholders having paid their share of the Government demand, any unusual difficulty in the management of villages by Government ageney, &c.

2. The District and Sub-Division Officers will accordingly enquire into all applications from any shareholder for sale of a village vrittivar and to pass order thereupon in due course.

R. VIJAYINDRA R AO,
Secretary.

To—Deputy Commissioners.
Sub-Division Officers.

Read—

Letter No. 124 of the 16th August 1884 from the Assistant Commissioner in charge of the Chitaldroog Sub-Division.

No. 3348—75, dated 26th August 1884.

Order thereon.—There is no occasion for suspending the collection of local cess on the hulbanni realizations under the rules issued in Proceedings of the 16th July last. In offering the grazing of the Government unoccupied lands to the inhabitants of a village, the local cess on the average hulbanni realizations of the village calculated as laid down in Rule I, should also be taken into account, and the amount of the offer should include the local cess. The apportionment of the amount of the offer (including local cess) will be left to the villagers themselves, and the amount payable by each ryot will be entered in his kháté in a lump as hulbanni, *i. e.* without any details as to the sums creditable to the heads of hulbanni revenue and local cess respectively. It will be sufficient for all purposes of account, if these details be shown for the whole village in the village accounts.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioners of Districts.
The Officers in charge of Sub-Divisions.

Proceeding of the Dewan to His Highness the Maharaja of Mysore, (Forests),—dated 13th August 1884.

READ—

Railway Manager's Memorandum No. 3100, dated 27th October 1882, regarding the adjustment of loss occasioned by loose stacking of fuel supplied by the Forest Department.

No. 3060-4—14, DATED BANGALORE, 13TH AUGUST 1884.

ORDER THEREON.—The Forest Department will charge the Railway for fuel at the rate of 80 c. ft. per ton, and not at 68 c. ft. as was the case before 1st July 1882.

2. The remainder of the loss is attributable partly to the inferior quality of the wood supplied, but chiefly to the grossly inefficient arrangements of the Locomotive Department of the Railway. It should be written off the accounts under a distinct head "Profit and Loss."

R. VIJAYINDRA RAO,
Secretary.

To—The Manager, Mysore State Railway, returning the file received from him.
The Deputy Commissioner, Bangalore District, for information and guidance.
The Deputy Commissioners of Mysore and Tumkur for information and guidance.
The Comptroller.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 11th August 1884.

READ—

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue),—dated 11th September 1884.

READ—

Letter No. 453, dated 19th June 1884, from Messrs. Davy, Muddappa and Co., submitting for orders the question of the rights of ryots to date trees on Kandayam lands.

No. 3593—81, DATED 11TH SEPTEMBER 1884.

ORDER THEREON.—The contractors or their agents should be asked to name any particular date topes which they may wish to retain, and steps will thereupon be taken (if considered necessary) to acquire such topes. The survey settlement gives to ryots the right to date trees on their lands, though they are debarred from drawing toddy from them. The terms of the settlement cannot now be altered; but at the same time, it is clear that some arrangement should be made to make the toddy contractor independent of the ryot.

2. It is believed that great laxity prevails in the observance of the rule prohibiting the giving out for cultivation, lands which contain date trees. The rule* should be strictly enforced and no land on which any date trees may be standing should hereafter be given for cultivation except under very exceptional circumstances and under the express order of the Deputy Commissioner in each case. A quarterly statement in the accompanying form should be submitted to this office showing all lands containing date trees which may be ordered to be given for cultivation.

READ—

Letter No. 618—189, dated 15th August 1884, from the Sub-Division Officer, Hassan, submitting for orders a memorandum of instructions to be issued to Amildars regarding the attachment of movable property for the recovery of revenue arrears.

No. 3643—82, CAMP MYSORE, DATED 15TH SEPTEMBER 1884.

ORDER THEREON.—The reference is thoroughly an unnecessary one: it is an old well established mámúl by which Government officials have for the *bonâ fide* purpose of attaching property when such a step is rendered inevitable, the right of entering a dwelling house for the seizure of property for attachment and sale of it in satisfaction of revenue arrears. Of course the entry must be made without unnecessary violence to the feelings of the inmates. The absence of complaints against wrongful entry shows that the Taluk officials understand the rules and procedure well. It is a matter of surprise to the Dewan that the Hassan Amildar, who is an official of many years' experience, should have felt any difficulty in the case.

Letter No. 205—155 of the 23rd May 1884 from the Deputy Commissioner of Shimoga, requesting instructions as to the transfer of the Umbli lands attached to the office of Patel of Tadasa village in the Shimoga Taluk to the present officiater Patel and stating that the last holder of the office who was dismissed declines to give up the lands.

No. 3696—84, DATED 17TH SEPTEMBER 1884.

ORDER.—The Umbli lands should be fully assessed and a portion of the assessment equal to the Jari amount should be regularly paid to the officiator as remuneration.

Annual Report on the Mysore Government Museum for the year 1883—84.

The total number of visitors during the year was 388,606, being an increase of 46,445 on the previous year.

The average daily number was	1,317
against 1,152 in 1882—83.	
The largest number in one day (the Dasara festival) was ..	11,770
The smallest number in one day was	728

Out of 388,606 visitors—
215,203 were males.
173,403 were females.

Signed in the Book—

Males	38,426
Females	1,536

Tally kept—

Men and boys				176,777
Women and girls				171,867
Visitors signed in the book in English .	Europeans ..	4,547	12,708	
	Natives ..	8,161		
Do do Canarese				14,532
Do do Tamil				6,167
Do do Hindustani				3,062
Do do Telugu				2,613
Do do Mahratta				706
Do do Guzerati				65
Do do Marvadi				22
Do do Malayalam				13
Do do Balabund				11
Do do Sindhi				4

Of the 39,962 persons able to write their names, it is found that upwards of 36½ per cent signed in Canarese, 31 in English, 15 in Tamil, 7 in Hindustani and 6 in Telugu. The percentage in the previous year was 38½ Canarese, 20 English, 11¼ Tamil, 7¼ Hindustani and 7 Telugu.

The total number of visitors who have now entered the Museum since it was first opened in 1865, amounts to 4,161,307.

The building is in good repair. During the year the coir matting of the ground floor was renewed by the Public Works Department.

It would be an advantage to have the upper floor also matted as the noise of persons walking overhead is rather distracting to visitors on the ground floor. Sanction will be applied for.

The additional specimens acquired during the year number 155 and were usually contributions of insects or of articles of trifling value. The donors were 24.

The collection of coins now consists of :—

Copper coins	955
Gold do	268
Silver do	198
Zinc do	24
Plated do	23
Gilt do	8
Lead do	6

One book has been added during the year.

The library now consists of 534 volumes.

The manuscripts are in good order and are carefully kept.

During the latter months of the year the Museum presented unusual interest to the public. The articles intended for the Calcutta Exhibition were arranged on the ground floor prior to despatch and attracted much attention. It is to this circumstance that the year owes so great an increase in number of visitors. The number has only once been exceeded in the history of the Museum and that as might be expected was in 1878—79, the year following its transfer to Cubbon Park.

To the Exhibition the Museum contributed specimens of timber trees and forest products and two cases of indigenous drugs. A silver medal was awarded on account of the latter.

Some articles, chiefly musical instruments of no great value, appear never to have reached Calcutta, and their recovery seems doubtful.

The conduct of visitors has generally been good, and intentional damage to the building or the articles on view is very rare.

In the month of December however a Muhammadan boy was discovered in the act of damaging the ornamental work of one of the windows. On conviction before the Magistrate he was sentenced to 15 days' imprisonment.

The following is a statement of the expenses incurred during the year :—

	Rs.	A.	P.
Salaries	1,692	0	0
Contingencies	110	4	11
Purchase of specimens..	5	0	0
Total Rs....	1,807	4	11

The expenditure is lower than that of the previous year, because in the year under report no opportunity offered of sending the Taxidermist into the District to provide fresh specimens of birds, &c.

The establishment of the Museum is the same as heretofore.

The Curator, B. Santappa, continues to give much satisfaction. He is at present attending the Botanical course with the view of adding to his qualifications.

No. 3518—206, DATED 8TH SEPTEMBER 1884.

ORDER THEREON.—Recorded.

R. VIJAYINDRA RAO,
Secretary.

To—The Superintendent, Mysore Government Museum.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 17th September 1884.

READ—

Letter No. 337 of the 29th August 1884, from the Deputy Commissioner of Tumkur, regarding the rate at which fuel for the Tumkur line could be supplied.

Memo by the Manager, Mysore State Railway, No. 2491—97 R., dated 8th September 1884.

Tumkur Fuel.

The Deputy Commissioner estimates cost of fuel at Tumkur as under:—

(*a*) Felling	0	12	0	per ton.
(*b*) Sawing	0	10	0	
(*c*) Stacking	0	1	3	
(*d*) Carting	1	4	0	
Total...	2	11	3	

Compared with Bangalore District the rates are—

(*a*) The same				per ton.
(*b*) 0	2	0 less . ..		
(*c*) 0	0	9 less		
(*d*) 0	4	0 more		
Total...	0	1	3 more.	

The only rate which appears to be susceptible of early reduction is that for carting; as the Railway becomes more generally used, carts will be available for other work and rates may then come down. Something might be done also in the way of making passable cart tracks.

For the present I take it the rate of Rs. 3—4—0 current on Mysore line may hold good subject to reduction if, by contract or otherwise, any of the above rates can be reduced.

No deviation from Railway specification either as to class or size of wood should be permitted.

Fuel is not required at Hirehalli, at present, especially as it costs more to deliver there than at Tumkur; and every stick so delivered has to be moved by the Railway and re-stacked elsewhere.

Requirements will soon be more than 200 tons a month.

I would suggest that tenders for cutting, stacking and delivery of fuel at Tumkur be invited by advertisement in local and Madras papers.

No. 3697-8—150, DATED 17TH SEPTEMBER 1884.

ORDER.—The accompanying copy of memo by the Manager, Mysore State Railway, is forwarded to the Deputy Commissioner, Tumkur, for information in reply to his No. 337 of 29th August last, submitting a memo showing the cost of Railway fuel.

2. As Mr. Becher requires no delivery at Hirehalli Station, the Deputy Commissioner may find it possible to reduce the charge under cartage. A rate of Rs. 3-4-0 per ton is accepted as a temporary settlement, and as all the fuel will be delivered at Tumkur and as the cost per ton delivered at Tumkur is estimated to be Rs. 2-11-0, the Forest Department will under this arrangement get 9 annas per ton. This amount will, it is hoped, soon be increased by reduction of the cost of cartage.

3. The Dewan would recommend calling for tenders as suggested by Mr. Becher in the last para of his memorandum.

R. VIJAYINDRA RAO,
Secretary.

To—The Deputy Commissioner, Tumkur District.
The Manager, Mysore State Railway, for information and guidance.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 17th September 1884.

From the Superintendent, Mysore Government Press, To the Secretary to the Dewan of Mysore, No. 189, dated 21st August 1884.

I have the honor to submit my annual statement of receipts and charges of the Mysore Government Press, for the year 1883—84 and to report thereon.

2. It will be observed that the total estimated value of the work done for the Mysore Government, according to the established scale of rates, amounted to Rs. 32,566—6—8 and the expenditure to Rs. 25,192—15—8. Deducting from this the cost of printing paper purchased from the Press funds, (Rs. 142—10—3), which does not enter into the value of work done, and the cash earnings, Rs. 3,344—5—10, the net charge to Government is Rs. 21,705—15—7, leaving a nominal profit or saving of Rs. 10,860—7—1, independently of the addition to permanent stock of the value of Rs. 2,988—0—1, as indicated in the margin.

Iron chases, type and wood letters	159	8	9
Value of English and Canarese type cast in the Press ...	2,828	7	4
	2,988	0	1

3. The value of work was on the whole Rs. 3,224 less than in the previous year, 1882—83. The decrease is observable chiefly in the work executed for the Civil and Criminal Courts, *viz.*, Rs. 566 against Rs. 1,430; for the Police Department Rs. 537 against Rs. 1,167; and for the Inam Department, which in the previous year contributed work to the amount of Rs. 4,120 and nothing in 1883—84. Further in the Railway Department, there was a falling off in the quantity and value of work, Rs. 700, being Rs. 4,601 against 5,301.

4. On the other hand, there was a marked increase (Rs. 1,786) in the work done for the Educational Department, the value having risen from Rs. 2,349 in 1882—83 to Rs. 4,135 in the year under report. The books named in the margin were printed; two * of them on account of private authors under special sanction of the Government, the printing charges being paid by them at cost price. The Revenue Survey Department comes next, the printing work of which was undertaken by the Government Press as reported last year. Work to the value of Rs. 1,546—14—0 was done in printing a large number of forms †(230) in English and Kanarese, showing an increase of Rs. 1,195 over the figure of the year previous and representing 270 pages and 826,100 copies. The Stationery Depôt and the District Offices also show an increase on account of forms. The increase under Gazette Office arose from the publication of the—

8. Under the instructions of the Dewan, a Demy Columbian Printing Press, an Athol Press and a Galley Press, with their appurtenances, as well as a quantity of Canarese and English type, have been made over to the Palace Press at Mysore.

9. I have only to add that the Manager B. Rangaiya Chetti has shown his wonted energy and application to the work of the Press, which has often been very heavy and of an emergent nature. He has been well assisted by the senior men of the Establishment, among whom I would specially name Bêli Srinivasa Rao, the Head Examiner, and S. Raghavendra Rao, the Accountant, both of whom are deserving of promotion.

No. 3722— 214, DATED 17TH SEPTEMBER 1884.

ORDER THEREON.—Recorded.

R. VIJAYINDRA RAO,
Secretary.

To—The Superintendent, Mysore Government Press.

Proceedings of the Dewan to His Highness the Maharaja of Mysore in the Public Works Department,—dated 8th September 1884.

READ—

Letter from the Comptroller and Examiner of Accounts, Mysore, submitting joint report on the scheme of Public Works Accounts recommended for adoption with a view to the eventual amalgamation of the Departments of General and Public Works Accounts.

No. 34—3662-81, DATED, BANGALORE, 8TH September 1884.

With the above letter, the Comptroller and Examiner of Public Works Accounts submit proposals for modifications in present system and procedure as regards Public Works Accounts, with a view to reduction of cost of establishment and eventual amalgamation of the offices of General and Public Works Accounts under the Comptroller of Mysore.

2. These proposals are divided into 3 sections :—

(1). Forms of account to be retained.

(2). Modifications in present procedure with a view to simplification of account and reduction of clerical labor.

(3). Changes in establishment.

3. The proposals under (1) are approved and may be adopted at once.

The form of measurement book to be adopted should receive early attention.

4. Under (2) also the proposals meet with approval generally, but the following points require to be noticed :—

(i). As regards vouchers for payments, it is to be understood that the present system is to be maintained in all particulars except as regards the reduction of second arithmetical check.

(ii). As regards the execution of annual repairs to roads, the experiment of giving out small sections within each village to the inhabitants of it, is deserving of trial.

(iii). The powers of sanction of Public Works Officers have been separately dealt with, *vide* Procedings No. 3509—27, dated 29th August 1884.

5. The proposals regarding establishment show an ultimate saving of Rs. 4,450 per annum on office establishment alone, being a reduction of 32 per cent on present cost ; besides this, a separate Examiner of Accounts will not be required. This result is satisfactory and the proposals are approved accordingly.

6. T. Kuppusami Mudaliar, Audit Manager, may be retained for a time on his present pay Rs. 100 per mensem, of which Rs. 20 will be treated as *personal allowance*.

C. Venkatachalam Mudaliar may be given the usual 3 months' notice and allowed to retire on the pension to which he is entitled.

V. P. Venkataram Mudaliar and V. M. Kumarasami Mudaliar will be provided for in some other Department and their names should accordingly be included in list of supernumeraries in the General Department, and Deputy Commissioners should be asked to provide for them as early as possible in the Revenue or Account Departments of their offices.

7. The proposed scale of Accountants both as to number and pay of grades may be adopted from the 1st September 1884. This scale provides for—

1	Accountant	1st Grade.	
2	„	2nd „	on Rs. 80 to 100
5	„	3rd „	„ Rs. 60 to 80
6	„	4th „	„ Rs. 40 to 60

Proceedings of the Dewan to His Highness the Maharaja of Mysore in the Public Works Department,—dated 8th September 1884.

The pay of the 1st Grade Accountant during the incumbency of Mr. Varadaraj Pille is fixed at Rs. 200 per mensem, subject to modification hereaf er on his vacating, if considered advisable.

8. Memoranda A, B and C are attached for the information and guidance of all concerned.

By Order,

C. H. M. KENSINGTON, *Captain, R. E.,*
Secretary to the Govt. of Mysore, P. W. D.

To—The Examiner of Public Works Accounts.
" Executive Engineers and Assistant Engineers of Ranges.
" Comptroller in Mysore.
" Secretary to the Dewan of Mysore, General Department.
" Deputy Commissioners of Districts and Assistant Commissioners of Sub-Divisions.

A.

REPORT ON PUBLIC WORKS ACCOUNTS.

For convenience of reference the forms of the Public Works Department have been divided into the following sections :—

List of Forms attached.

1. Forms of Account kept at site of works.
2. Forms of Account kept in Sub-Divisional Office.
3. Forms of Account kept in Divisional Office.
4. Forms of Account compiled in Divisional Office.
5. Forms of Account kept in Examiner's Office.

Each section will be dealt with separately.

Section 1.—Forms few in number and not capable of alteration. In cases of work being done by contract or piece work, which systems should be universally adopted to the exclusion of amani work, the only account required to be kept in this section is a measurement book. The Secretary, Public Works Department, has now under consideration in communication with Executive Engineers the form to be finally adopted, but it is suggested that it be made as simple as possible and that the pages be numbered in the Press so that the abstraction of any can be readily traced.

Section 2.—These forms are 18 in number, of which—

4 are seldom used, *i. e.* only when occasion requires.

2 are only used for works done by amani.

1 (Measurements of work) may be discontinued, as original measurement books can be referred to by Sub-Divisional Officer when information is required.

The other forms are not capable of modification and cannot be dispensed with.

Section 3.—Forms 28 in number, of which—

1 is seldom used, it being only required in special cases.

6 are occasional.

1 has been changed into a register.

The other forms cannot be dispensed with or modified.

Section 4.—Forms 32 in number, of which—

4 are occasional.

1 has been cancelled.

1 is obsolete.

4 are to be discontinued under proposals now made in Memo marked **B** (all alterations therein proposed have been discussed with and agreed to by the Secretary, Public Works Department). The rest of the forms are necessary and are not capable of serious modification.

Section 5.—Forms 32 in number. With one exception these forms are necessary and suitable. No alteration is therefore proposed.

The exception is the register of completion reports which if required may be kept in Secretary's Office where all completion reports should be filed.

It is necessary in thus reducing the check that will be exercised on expenditure in the Account Office to provide for other means of check and with a view to meet this it is proposed that the Assistant Examiner, Public Works Accounts, be deputed twice a year to inspect all Divisional and independent Range Offices, submitting reports through the Comptroller to the Secretary, Public Works Department, for information and any orders or action necessary. This will occupy at least 4 months of the year as the inspections must be minute and searching to be of any value.

Proposed alterations in present forms and system of Public Works Accounts.

Tools and Plant and Stock.—The submission of half-yearly returns to be discontinued. A register, in a form similar to that now in use, to be kept in all Divisional, Range and Sub-Divisional Offices; these registers will be inspected at least twice a year by the Inspecting Officers who will report dates and results of inspection.

The discontinuance of these returns will not in any way relieve executive officers of the responsibility for safe custody, proper care, &c., of tools under their charge or of the duty of taking stock by actual count at regular intervals. Executive Engineers will be required to inspect the registers kept in Range and Sub-Divisional Offices at least twice a year and report on the state they are in, this opportunity should also be taken to check by count the correctness of the register as far as practicable.

A money limit for the value of tools (not to include surveying instruments, machinery or office furniture) to be fixed for each Division. Executive Engineers to have power to dispose of and replenish their supplies within these limits and within the limit of the budget grant placed at their disposal. Survey reports on unserviceable tools and returns of sanctions for purchases or manufacture being sent to the Superintending Engineer. Estimates for purchases or manufacture exceeding Rs. 200 require sanction of the Superintending Engineer. Transfers of tools and plant and stock to other Divisions require the sanction of the Superintending Engineer. Public Works Secretary's Circular No. 100 to be cancelled and a fresh one issued.

Work Vouchers.—The submission of Work Vouchers with the monthly accounts to be discontinued and in lieu thereof Executive Engineers to submit the following certificate:—

"Certified that the registers of works have been posted up to date for all works and repairs, and that for all works costing upwards of Rs. 500 detail of sub-heads according to main and detail abstracts of sanctioned estimates has been duly posted. Also that all excesses over or depar-

tures from sanctioned estimates have been duly reported in the Audit Notes in accordance with the orders contained in Circulars No. 64 of 28th April 1882 and 75 of 12th May 1882." Abstracts of sanctioned estimates will not be sent in future by Secretary to the Accounts Office.

Abstract of Schedule of Expenditure.—May be discontinued.

Vouchers.—Vouchers for all payments except daily labor and petty purchases below Rs. 5 to be submitted with the monthly accounts. All vouchers to be initialled by the Divisional Accountant in token of his having satisfied himself of their arithmetical correctness. It will not then be necessary to re-check the whole of these in the Audit Office, the Divisional Accountant being held responsible in this matter; but the Auditing Accountant should select a certain proportion of the more important vouchers each month (say about 25 per cent) and personally satisfy himself of their correctness; it will be the special duty of the Auditing Accountant to see that each voucher is in proper form, that the payment has been authorized by competent authority (generally under initial of Executive Engineer or subordinate) and has been duly acknowledged by the payee. If it is found that the check of Divisional Accountant is not carefully exercised, the matter to be specially reported to the Comptroller. In certain cases the Cashier may be allowed to record his initials as having checked the vouchers, but this must be separately sanctioned in each case.

N. B.—It is to be distinctly understood that task work is not *daily labor*, and vouchers for all payments for this class of work have, therefore, to be submitted with the monthly accounts.

Contracts.—It is to be accepted as a fundamental rule of the Public Works Department that all works should be done *as far as practicable* by contract, petty contract and task work. The following rules determine the system of contract to be adopted and the forms of account to be used in each case. Tenders are to be publicly invited by advertisement in the Mysore Government Gazette and in Local papers and otherwise, for all works costing Rs. 5,000 and upwards. The acceptance of tenders for works costing Rs. 5,000 to Rs. 10,000 will rest with the Superintending Engineer by whom the form of contract bond to be used will be issued. Works above this limit will be dealt with by the Secretary, Public Works Department.

For all such works contract accounts in Public Works Forms No. 14 and 29 to be kept. For all works and repairs below the above limits and in excess of Rs. 2,500, tenders shall be invited by Executive Engineers with whom their acceptance will rest. Such works *need* not be advertised in Local papers, but should be made known as widely as practicable.

For these works petty contract accounts in forms No. 15 and 17 to be kept.

All other works may be given out as task works, and accounts kept accordingly. It should be understood, however, that the difference between petty contract and task work consists in the former being a running account in which certain arrears are kept in hand and the latter being payment in full for work done and approved. As regards annual repairs of roads, the method of doing work, *i. e.* by contract, petty contract or task work, will be left to Executive Engineers, but it should be understood that whatever system of work be adopted the corresponding system of account should also obtain.

Travelling Allowances.—Code under preparation, journal form lately revised, tentage certificate in bill to be recast.

Completion Reports.—The following rules are prescribed regarding the use of forms of Completion Report.

* Form No. 108A be used for all works costing Rs. 2,500 and upwards.

† Form No. 108B for all annual repairs of roads and for all other works costing less than Rs. 2,500 and more than Rs. 500.

‡ Form No. 108C (Serial No. 102A) for all works costing Rs. 500 or less.

Re-appropriation Statement.—The existing form to be used only in cases of transfer of budget grant from one work to another or from one budget head to another.

Copies are not required in the Account Office, the originals may be sent for note in budget registers and return.

Budget Registers.—No change proposed, but Secretary will send his registers of sanctions and appropriations to the Comptroller in the Public Works Department for note, instead of returns as at present.

Objectionable Items Statement.—In existing form, to be sent monthly to the Government and to include all irregularities regarding which Superintending Engineer's orders in audit notes cannot be accepted as final; either from it being beyond his powers of sanctions or any other special reason.

---

* This form gives full detail by sub-heads.
† This is a simpler form.
‡ Deals with totals only.

Powers of sanction.—Powers of sanction of Superintending Engineer and Departmental Officers have been defined in Dewan's Proceedings No. 3509—27, dated 29th August 1884.

Taluk Officials' Public Works Accounts.—1. Cash balance statement, wherever there is a drawing account.

2. Cash or imprest cash book as the case may be, copies to be sent into the Executive Engineer's office at least twice a month.

3. As no *amani* labor is to be used the forms of muster roll, daily report and day book will not be used by Taluk officials ; as a rule their accounts should be kept in the task work form. In the case of works or repairs costing Rs. 2,500 or upwards, petty contract accounts should be kept, but this does not apply to annual repairs to roads, in which case it is optional with the Taluk officer to employ whichever system he wishes.

4. Measurement books either for each work or a series of works as may be desired and in the form decided on by the Superintending Engineer.

5. Register of tools and plant in prescribed form. This should be inspected at least twice a year by Executive Engineer and reported on by him, he should take any opportunity that occurs of testing the correctness of this book by actual count.

6. Completion reports for all works in forms prescribed.

In the case of works costing Rs. 500 and upwards the completion reports should be accompanied by measurement books, which will be recorded in Executive Engineer's Office.

All establishment will be paid by the Executive Engineer to whom all changes should be reported.

In the foregoing notes the frequent inspection of Divisional Offices has been referred to, it is assumed that the Superintending Engineer or his Assistant will inspect all Divisions half-yearly.

I think that it is also advisable to have an Account Inspecting Officer and I propose that the present Head Accountant be told off to that duty ; he will be required to inspect all Divisional and Range Offices twice a year and such Sub-divisional offices from time to time as he may be directed to.

The reports on inspections will be forwarded by the Comptroller to the Superintending Engineer for information and any orders requisite.

PUBLIC WORKS ACCOUNTS.

Establishment.

Various memos have been submitted from time to time dealing with the various points relating to changes in the Public Works Accounts Branch, but on none of them have any orders been issued.

The question has now assumed a new phase and proposals are framed to meet the requirements of the Department under its new condition.

I will deal first of all with the Office of Examiner, Public Works Accounts, for in this the greatest changes will of necessity be made consequent on its amalgamation with the Office of the Comptroller of Mysore.

The accompanying Statement marked A shows the present constitution of the office and that which it is proposed should be eventually adopted after the amalgamation has taken place, as opportunities arise of disposing of present incumbents of posts.

The proposed reduction is partly due to the reduction of clerical labor in the audit of accounts as proposed in the joint report* of Comptroller and myself, to all of which proposals the assent of the Secretary, Public Works Department, has already been obtained and partly to the substitution of men on lower pay for those who, from length of service and other causes, are drawing pay higher than that usually given at the present time in other Departments for similar work. It will be seen that the proposed reduction is Rs. 4,450 or about 32 per cent of the present cost.

*Memos A and B.

The pay of an Examiner, Public Works Accounts, has not been taken to account in this statement, and it is not known what will be charged to this head in future on account of the appointment of Comptroller or Assistant Comptroller.

To deal with the items in Statement A seriatim :—

1. No change is made in the pay of Head Accountant ; it has already been proposed that he should get the pay now put down, as well as the Honorary rank of Assistant Examiner, Public Works Accounts.

2. The post of 3rd grade Accountant has not been filled up and it is proposed to omit this altogether.

3. No further reduction in the pay of the 4th grade Accountants contemplated at present 3 Accountants will be required to audit 9 sets of accounts and 1 to audit establishment bills and keep registers.

The present Audit Manager Mr. T. Kuppusami Mudaliar, is in receipt of Rs. 100 per mensem, and I think it would be advisable to retain him for some little time until another man can be trained to succeed him. He possesses a good knowledge of all matters connected with the establishment of Public Works Department and rules regarding salaries, travelling allowances, leave, pension, &c. He has 18 years 5 months service at his credit on 30th June and is a very intelligent and useful public servant Hereafter he may be retired on pension if some suitable post cannot be found for him in Comptroller's Office or elsewhere.

4 An Apprentice Accountant on an increase of Rs. 5 has been provided, as it is necessary to have a man in reserve to relieve any who may fall sick or go on leave.

5. Considerable reduction has been effected under the head "Clerks." There are at present the following Clerks in the office drawing pay higher than that provided for :—

1. C. Venkatachala Mudaliar, Rs. 70.
2. V. P. Venkatarama Mudaliar, Rs. 70.
3. V. M. Kumarasami Mudaliar, Rs. 60.

These men therefore require to be disposed of before any real reduction can be effected.

No. 1 may be allowed to retire on pension, and I propose with your approval to give him 3 months' notice on the expiration of his privilege leave.

Nos. 2 and 3 are thoroughly useful men and it would be a great pity to place such men on a pension list. A statement of their services is appended for reference. No 2 has been already recommended more than once for transfer to the Revenue Department, but no appointment has apparently been available. These men disposed of, the rest can be filled into the revised scale.

One Clerk on Rs. 30 has lately been transferred to the Mysore State Railway to fill a vacancy there, so that the number is now only 2 in excess of requirements, 8 being employed against 6 required.

Further reductions if found practicable can be made by the Comptroller hereafter.

6. Next ; to deal with the Divisional Accountants. I would preface these remarks by stating that hitherto the Accountants in the Examiner's Office and Divisional Offices have been on one scale and in the same footing as regards pay and promotion ; this it may be desired to alter now if the Public Works Accounts Office is to be completely amalgamated with the Comptroller's, but the present incumbents of office should, I think, receive special consideration in any arrangements that are so made.

There will be 9 sets of accounts to be compiled ; there will, therefore, be 9 Accountants required for Divisions and Ranges. Certain transfers have lately been made to adjust as far as possible existing establishments to requirements and the matter now stands as follows :—

In Bangalore, Tumkur, Shimoga and Kadur there are Accountants drawing Rs. 80 per mensem. In Mysore the Accountant being a junior man draws Rs. 65 per mensem.

In Hassan and Kolar the Accountants draw Rs. 50 per mensem.

In Chitaldroog the Accountant draws Rs. 45 per mensem. Besides these men there are the following :—

Assistant Accountant, Mysore, Rs. 35.
Apprentice Accountant, Bangalore, Rs. 30.

I am not quite sure that it will be necessary to retain the last mentioned two men in their present positions when the new system of Local Fund officials executing Public Works is introduced, but that can be settled hereafter and provision made for them as found necessary.

It is necessary, in order to keep men satisfied, to hold out certain prospects of advancement to them and from the fact of there being no fixed scale up to which men can be promoted as vacancies arise, I have found that the best men are desirous of leaving the Account Branch for others where prospects are more definite.

I therefore once more propose a scale for the Accountants of the Public Works Department and I hope that it may meet with approval and be sanctioned.

If the men in the *Comptroller's office are to be considered separately, the number to be dealt with will be 9, but if they be included it will be 14.

(Present Examiner's)

For the present, I am of opinion that the latter figure should be adopted, it being understood that any new appointments to the Accounts office will not be made against the scale of the Public Works Department, which may be reduced gradually as vacancies occur, but as a portion of the Comptroller's Office of Account generally. Taking 14 then as the number to deal with, we should, I think, divide it as follows :—

1	Head Accountant or Assistant Examiner.
2	2nd Grade Accountants.
5	3rd Grade do.
6	4th Grade do.
14	Total.

The next point is to fix the pay of the grades. During the incumbency of Mr. Varadaraja Pille the pay of the Head Accountant should remain at Rs. 200 per mensem, modification being made hereafter if desired.

2nd	Grade	should get	80 to 100 Rs.
3rd	do	do	60 to 80 Rs.
4th	do	do	40 to 60 Rs.

I do not think that considering what is required of them the pay can be reduced below these figures.

Endeavours will be made to place the men on the lowest pay in the offices where there is least work or where there are advantages of some sort such as climate, &c., but of course this will not be feasible in every case. Divisional Accountants should also as a rule be those highest in the scale except in the case of the Head Accountant who will necessarily be attached to the office of the Comptroller at Bangalore.

REVENUE.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Revenue,)—dated 30th October 1884.

READ—

Letters Nos. 343 and 451, dated 30th August and 18th October 1884, from the Deputy Commissioner of Tumkur.

Letter from Mr. C. Papanna, Toddy Contractor, Tumkur District, dated 6th October 1884.

———

No. 4470-81—92, DATED 30TH OCTOBER 1884.

ORDER.—The right to date leaves is not included in the toddy contract now in force. Dewan's Proceedings Camp No. 18, dated 28th October 1881, contemplated including this right in the toddy contract, but the complaints received against this arrangement induced the Dewan to revert to the previous system under which date leaves used to be excluded from the toddy contract. Provision was accordingly made in para XI of Notification No. 303, dated 18th January 1884, restricting the contractor's right to such leaves as may have to be removed for the purpose of drawing toddy. The right to leaves of date trees situated on Government land is thus reserved at present for separate disposal, and no longer vests in the contractor.

2. The Deputy Commissioners and Sub-Division Officers are requested to report what arrangements are necessary to dispose of the Government right to the leaves of date trees. They should be so disposed of as not to lead to any deterioration of date trees. With this view the toddy contractor should be given some control over the trees and the removal of leaves therefrom, but he should be prohibited from levying any revenue from such persons as may remove the leaves for mat and rope making.

Secretary.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (Financial),—dated 16th October 1884.

No. 4159-68—86, DATED 16TH OCTOBER 1884.

ORDER.—By Proceedings No. 6067—162, dated 6th January 1883, the contingent or sadirwarid allowance for Deputy Amildars' Offices was fixed at Rs. 5 per mensem. This is considered insufficient and all the District and Sub-Division Officers recommend its enhancement. The Dewan is accordingly pleased to raise the allowance to Rs. 8 per mensem for all Deputy Amildars' Offices.

Secretary.

To—The Deputy Commissioners of Districts.
The Sub-Division Officers
The Comptroller.

No. 4515-16—341, DATED 31ST OCTOBER 1884.

ORDER.—The amount to the credit of the Police Superannuation Fund of the Town of Bangalore amounted on 1st April 1884 to Rs. 9,860—1—5.

2. The Police of the Bangalore Town is generally on the same footing as regards pay as the Police in other parts of the Province, and the whole of the Provincial Police Force is now allowed by the State the same pensions and gratuities as public servants in other Departments. Under such circumstances the Government decide that the Police Superannuation Fund for the Town of Bangalore shall cease to exist from 1st November 1884 and that all securities and sums of money which on the said day may be standing to the credit of the said Fund shall be transferred and paid to the Government of Mysore for the general purposes of the Government.

3. From and after the said 1st November 1884 no stoppages from the pay of the Police of the Bangalore Town shall be made as contributions to the said Fund.

4. The rules regarding pensions and gratuities sanctioned in the Government of India Notification No. 549, dated 11th May 1877, shall for the present apply to the men of the Bangalore Town Police Force.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 13th October 1884.

Proceedings of the Dewan—Order No. 1345—P. 78, dated 27th May 1884.

READ—Docket No. 123, dated 7th May 1884, from Deputy Commissioner, Bangalore, reporting on petition of Gundappa, Shanbhog of Jodi Gundlanahalli, Anekal Taluk, Bangalore District

The person to whom a village is alienated by Government is bound by the same rules as would bind Government in regard to hereditary village servants. The alienation of a village is always understood to be subject to this liability on the part of the alienee. If petitioner's family enjoyed the Shanbhog hak of the village in question, his removal must be regulated by rules applicable to Shanbhogs of Government villages. It should also be explained whether any and what inam lands are enjoyed by the village servants in the village in question, and whether the benefit of such lands is excluded from the assets of the village alienated to the jodidar. This is a good test as to the jodidar's obligations in regard to the treatment of village servants.

If petitioner's exclusion is considered desirable by the Deputy Commissioner, then in that case a successor should be appointed out of petitioner's family as already directed. The jodidar cannot object to such an appointment without assigning a *specific* reason. The disqualification alleged against Anantaiya should be reported.

To—The Deputy Commissioner, Bangalore.

Bangalore Deputy Commissioner's letter No. 539, dated 3rd September 1884, reporting on the petition of Gundappa, Shanbhog of Jodi Gundlanahalli, Anekal Taluk.

No. 4041—217, DATED 13TH OCTOBER 1884.

ORDER THEREON.—The further report called for and now submitted does not show that the Shanbhog has been guilty of any serious crime: a vague charge that he is insubordinate to the inamdar is not sufficient to deprive a hereditary village officer of his ancestral hak. He will be reinstated, but must also be warned that if he fails to keep correct accounts or is proved to be insubordinate to the inamdar, he will be dismissed from the office. Proceedings are returned.

Petition dated 10th October 1884 from Gangadhara Shastri of Krishnaraj Kattepur in the Yedatore Taluk, complaining against the Deputy Commissioner's order directing the removal of a house built by him on his Kandayam land in the Sargur village.

No. 4133—221, DATED CAMP MYSORE, 16TH OCTOBER 1884.

ORDER THEREON.—The petitioner constructed a house on an assessed dry land with the permission of the local Revenue authorities, and this house, though used chiefly for purposes of agriculture, is also used as a dwelling. The Deputy Commissioner has directed the removal of the house on the ground that its construction is opposed to the Revenue Survey Rules. These rules which are found to be productive of hardship require modification. The Deputy Commissioner is accordingly requested to withdraw the order complained of and to allow the house in question to remain undisturbed.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 24th October 1884.

From the Offg. Military Secretary to the Commander-in-Chief, Madras Army,
To the Secretary to the Dewan of Mysore, D. O. No. 43, dated 15th October 1884.

I am desired by His Excellency the Commander-in-Chief to submit to you the following proposals for bettering the condition of deserving Native soldiers, who may be discharged from the service with gratuity or pension whilst they are still young and active enough to do something to earn their livelihood in a civil capacity.

2. Amongst Native employés of all grades, there obtains, in this Presidency, a regular system by which appointments are jealously guarded from open competition and are handed down from father to son, from elder to younger brother, or from uncle to nephew. This is natural enough, but it is at least probable that employers may often suffer from the desire of their subordinates to keep everything in the family. It is in consequence of this system that discharged soldiers, whose connections and influence have, as a rule, entirely concentrated themselves in the Army, find it most difficult to make a start or get any sort of opening in civil life,—for certain departments of which they are nevertheless peculiarly well qualified by their military training and antecedents.

3. For instance, it seems to His Excellency that the habits of obedience, cleanliness and punctuality which are acquired during a soldier's career, would find a most fitting application in such appointments as those of peon to public offices or mercantile firms, of gate-keeper along lines of Railway, of postal or telegraph messenger, or any similar employments, which demand reliable and steady men.

4. As a means of assisting discharged soldiers of good character, the Commander-in-Chief has already collected a considerable number of names of Native soldiers who are anxious for employment, and who are at the same time certified to be of good character.

5. If this proposal meets with your approval, and should you at any time require the services of a man of good and tried character, this office will be most happy to furnish you with the fullest description of such candidates as may be fitted for the post you desire to fill.

6. No candidate's name and description will be forwarded for your approval unless his previous good conduct has been distinctly vouched for by his late Commandant;—such a character for previous trustworthiness will, it is hoped, be regarded by employers as a valuable guarantee for future good behaviour.

7. Finally, I am desired by the Commander-in-Chief to inform you that His Excellency hopes much benefit may accrue to the Madras Native Army from this project. Nothing is more calculated to encourage men to enter on a military career than the thought that they will not be forgotten so soon as they cease to be fit for duty under arms. His Excellency therefore trusts you will give your cordial support to this scheme, and that when you have a vacancy suited to the capacities of an old soldier, you will communicate with this office.

No. 4330-40—89, DATED 24TH OCTOBER 1884.

ORDER THEREON.—Communicated to the Manager, State Railway; Departmen Public Works Secretary and District Officers, with the remark that on occurrence o vacancies to which it may be desirable to appoint discharged sepoys, application fo men of this class may, *if necessary*, be made through this office.

Proceedings of the Dewan to His Highness the Maharaja of Mysore, (General),—dated 27th October 1884.

No. 4358-67—90, DATED 27TH OCTOBER 1884.

ORDER.—His Highness the Maharaja's Government are of opinion that it will be highly desirable to appoint to each District an Agricultural Inspector on a salary of Rs. 30 per mensem. For this office, a person, duly qualified by a course of instruction in Scientific Agriculture, Chemistry, Botany and Surveying, will alone be appointed. Agricultural Inspectors will be under the orders of the Deputy Commissioner, and will be available for inspection of, and report upon, agricultural operations throughout the District, for the diffusion of a knowledge of improved methods of agriculture by means of experimental farms and practical instruction in various parts of the District, and for the establishment and supervision of Government Plantations in suitable localities. It is the intention of Government that the Agricultural Inspectors should also be so employed by the Deputy Commissioners as to qualify them for employment hereafter on the executive duties of a Deputy Amildar.

2. Out of the Mysore students who have passed in 1884, four have applied for appointment, and they are accordingly appointed Agricultural Inspectors and posted as follows :—

Nilakantha Rao	To Bangalore District.
Srinivasa Rao	To Kolar District.
Venkatadasappa & Shamaiengar	To Tumkur District To Mysore District.

3. The Deputy Commissioners of the Districts above named are requested in due course to report the manner in which Agricultural Inspectors are employed by them.

4. Yelandur Setu Rao who passed from the Agricultural College in 1883 is granted a scholarship of Rs. 20 per mensem, tenable for one year, to enable him to study Veterinary Surgery.

5. Appointments of Agricultural Inspectors for other Districts will be made hereafter when more Mysore students pass from the Madras Agricultural College.

Docket from the Deputy Commissioner District, No.
dated reporting on the subject of house-tax due on the bungalow formerly occupie
by in

No. 4232—235, DATED 21ST OCTOBER 1884.

ORDER THEREON.—In para 6 of their Proceedings of 11th July 1884, the Municipal Board of have recorded their opinion that should pay the house-tax on the bungalow referred to for the time he was owner of it, prior to its purchase by Government, which took place in , contends that he is not liable to the tax as "by the time the tax was due he had ceased to be the owner" and as Government bought the house with all rights and liabilities at the time attaching the property. The Deputy Commissioner now reports that a sum of Rs. on account of house-tax on the premises in question up to the date of its sale (*i. e.*, $\frac{3}{4}$rds of the annual tax of Rs.) is due from and that the late Deputy Commissioner had ordered its recovery from him.

2. The mohatarfa house-tax is not a charge upon the house in the same way that the land revenue is a charge upon the land; therefore the liability to pay the mohatarfa house-tax does not pass with the sale of the house to the purchaser. The mohatarfa house-tax is leviable *on* or *after the first* day of the year for which it is due, and this liability is not, as against Government, modified by the fact that, from considerations of convenience, Government have fixed the dates on, and the instalments in, which it should be paid. If a person who is liable to pay the mohatarfa house-tax transfers his house within the year to another, both the transferrer and transferree are liable to pay the tax, though the payment by one discharges the other from the liability. Whether the transferrer or transferree is to pay the tax must be a matter of private arrangement between them with which Government has no concern. In so far as the Government revenue is concerned, both are jointly and severally liable. In the present case as the purchaser is the Government, which enjoys an express exemption from mohatarfa taxes, the liability practically attaches only to the seller.

3. Under such circumstances it follows that is liable to the tax for the whole year, though the Dewan does not wish that a larger amount than what the Municipality has already demanded, should now be demanded from him.
